DETAILED ACTION

This is a Notice of Allowance for application no. 10/052,521 in response to the amendment filed on March 24, 2006 wherein claims 1-3, 5-11, 13-17, 19, 22, 24-31, 33-38, and 40-41 are presented for examination.

Allowable Subject Matter

Claims 1-3, 5-11, 13-17, 19, 22, 24-31, 33-38, and 40-41 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly disclose an image editing apparatus and method as defined in independent claims 1, 5, 6, 7, 13, 19, 22, 26, 27, 33, 38, 40, and 41. The closest prior art (Birch US Patent Application Publication 2002/0154694 A1) discloses a similar image editing apparatus and method. However, Birch fails to particularly teach or suggest "in a case where said image data analyzer determines that a second GOP next to a first GOP to which a start point of an editing target area belongs is not a closed GOP, said image coder converts the second GOP into a closed GOP by converting frames in the editing target area between an I picture at a head of the second GOP and a P picture such that the second GOP includes no B picture" as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
